

Real easy. Real time. Real profits.

Now you can offer greater wireless POS functionality at a lower price with CHARGE ANYwhere.™

It's more than a wireless handheld that can complete credit card transactions virtually anywhere,* anytime in a matter of seconds. CHARGE ANYwhere™ is a complete wireless payment processing solution. Its industry-specific, Web-based software is prepackaged and customizable. So your customers can generate real time reports and integrate information with their existing systems. And with messaging and Internet e-mail capabilities, they can stay in touch even when they're on the move. CHARGE ANYwhere™ is also priced right, which makes it affordable to more of your customers.

You might say it's the ultimate wireless POS device for taxis and limos, in-home service technicians, delivery services and other businesses on the move. Contact your merchant services sales representative to find out more about this real functional, real affordable solution!
